You are about to purchase a product that is not simple and may be difficult to understand.

### What is this product?

**Type** This product is a non-UCITS investment fund. It is intended for retail investors and is structured as a Retail Investor AIF (Alternative Investment Fund). The minimum initial subscription and subsequent subscription amounts are set at €10,000. The product's return depends on the performance of the underlying assets. Capital is at risk in respect of this product.

### Objectives

**Product objectives** The Fund aims to achieve long term growth by investing in securities, at least 70% of which are defined as sustainable assets. "Sustainable assets" are defined as those which meet the fund's sustainable thematic alignment and exclusion criteria. This product exposes you to moderate risk exposure.

**Investment approach** The Fund seeks to achieve its investment objective by investing on a diversified basis in transferable securities, such as equity securities and debt securities, and collective investment schemes (including exposure to alternatives such as property and forestry).

**Investment policy** The Fund seeks to achieve its investment objective by investing on a diversified basis in transferable securities, such as equity securities and debt securities, and in collective investment schemes. The Fund may invest across asset classes, sectors, geographies, and market capitalisations without limitation save in respect of the restriction on investment in collective investment schemes.

**Benchmark** There is no benchmark.

**Redemption policy** Redemptions are as follows: the first business day in each month and the first business day in each calendar month.

**Distribution policy** There is no current intention to declare any dividend in respect of the Fund.

**Sustainability policy** The manager integrates sustainability risk management throughout the investment lifecycle however, the fund does not pursue a sustainability mandate. The Fund's investment objective is to be achieved whilst applying the Fund's sustainable investment process, which includes an application of exclusion criteria, the selection of investments aligned to select sustainable investment themes and detailed ESG due diligence for all holdings. The fund will hold at least 70% in sustainable assets. "Sustainable assets" are defined as those which meet the fund's sustainable thematic alignment and exclusion criteria.

### SFDR Article 8

**Derivatives policy** The fund may utilise derivatives for efficient portfolio management.

**Intended retail investor** This product is intended for investors who are prepared to take on a relatively high level of risk of loss to their original capital in order to get a higher potential return, and who plan to stay invested for 5 years. It is also designed to form part of a portfolio of investments. The fund will target Irish retail investors

**Term** This product is open ended. However, the Manufacturer reserves the right to close the product, at one month's notice, should assets fall below €4,000,000 at any time one year post launch.

### What are the risks and what could I get in return?

#### Risk Indicator

The risk indicator assumes you keep the product for 5 Years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to pay you.

See prospectus for full suite of applicable risks.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

## Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

**The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.**

The stress scenario shows what you might get back in extreme market circumstances.

Further details are available from the Manufacturer.

### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10 000 is invested.

Investment EUR 10 000 Scenarios	If you exit after 1 Year	If you exit after 5 Years
<b>Total Costs</b>	172 EUR	934 EUR
<b>Annual costs impact (*)</b>	1.7%	1.8% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.74% before costs and 5.90% after costs.
